

Endeavour Tools Automotive Multimeter with Sensor Simulation ET2404

**Stock Arriving
Mid June
Preorder now.**

- 1. Data Hold
- 2. Selector Switch
- 3. Function Select
- 4. Clamp Current
- 5. Sensor Simulate
- 6. Max/Min Value
- 7. Relative Value
- 8. Back Light
- 9. Multimeter
- 10. Frequency
- 11. RPM
- 12. MS-Pulse

ET2404

Simulates sensors / measures sensor output - any voltage, resistance, or frequency output. Troubleshoot all sensor related problems on-vehicle. Plus full integrated automotive DMM, including duty cycle / pulse width.

Functions

1. Data Hold
2. Selector switch
3. Function Select
4. Clamp Current
5. Sensor Simulate
6. Max/Min Value
7. Relative Value
8. Back Light
9. Multimeter
10. Frequency
11. RPM
12. MS Pulse

Applications:

This multimeter is UNIVERSAL and can be used on ANY MAKE AND MODEL.
