# Loads of Spring Freebies!

***...see inside for details...>>>***

# kranzle® ...starts where others stop!

This information will help you understand why it is intelligent to buy the best machine  
- it may also help you buy the waterblaster you should have bought before!

**2 YEAR**  
COMMERCIAL  
WARRANTY

## All Kranzle machines include the following industrial features:

**Made  
in  
Germany**

### Non-Corrosiveness and Durability

*Breakdowns due to corrosion are impossible!*

All parts of pump and safety devices that are in contact with water are made of stainless steel or special brass.

### Quality Pressure Gauge

*Kranzle quality in every detail*

All machines are equipped with a large conveniently located glycerine filled stainless steel pressure gauge.

### Solid Brass Pump Head

*10 year guarantee on pump head!*

The pump head is manufactured by Kranzle in Germany from forged special brass and guarantees an extremely long corrosion free life with a 10 year guarantee.

### Slow Runner

*Slow running, silent and durable!*

The machines (except for KHD10/122) are equipped with slow running, silent and durable quadripolar industrial quality electric motors (1400rpm).

### Dry-Run Safety

*Protecting the life of your machine*

All pumps are equipped with a fabric sleeve and a Teflon graphite back ring. The superior gliding properties of Teflon graphite serve to reduce both the friction resistance and temperatures in the pump. As a result, the systems can be operated undamaged without water for a certain period = dry-run safety.

### Stainless Steel Plungers with Ceramic Coating

*Excellent thermal conductivity + extremely low-wear*

All units are equipped with ceramic coated stainless steel plungers. This excellent feature of stain-less steel plungers include, excellent thermal conductivity, hard ceramic coating (extremely low wear) This serves to considerably increase the service life of our systems - No cracked ceramic plungers!

### Hose Drum Options

*The accessory you've always wanted now included!*

Kranzle's hose drums include 20m of high quality steel braided hose, rotation lock and easy access. You'll wonder how you could have used a unit without this extremely practical option.

### The Pump Assembly

*Innovation with a view to quality and long life service*

Lots of innovative features including patented unloader assembly ensures no load under bypass conditions, safety devices, brass pump head (10yr guarantee), stainless steel valves, ceramic pistons and much more. The use of the ultimate components produces the ultimate pump.

### Build Quality

*Kranzle's Q.C. checks involve stringent testing of every machine!*

An individual checklist is yours to see with every parameter checked before leaving the Kranzle factory. This ensures Kranzle's reliability record is kept 100% from day one.

### Bypass Operation

*Significantly prolonged service life*

All machines switch over to a low pressure bypass operation as soon as the gun is closed. The water is circulated with a residual pressure of approx. 10 bar. Machines with the additional option of total-stop switch off completely at this point. Pump and motor are shut down resulting in a significantly prolonged service life, as well as energy savings.

### Continuously Adjustable Pressure & Water Control

*Easy to use and easy to handle*

For all machines, the operating pressure and thus the amount of water can be exactly adjusted to suit the cleaning task.

### Safety Devices

- A pressure control valve for continuously variable adjustment of water quantity and pressure. This valve also allows for pressureless bypass operation.
- A safety valve protecting the machine against excessive overpressure.
- An integrated flow monitor device switches the burner off if the water flow is too low, thus preventing the combustion chamber from overheating.
- A pressure monitoring device only allows burner to operate if there is sufficient pressure
- An additional differential pressure switch automatically switches the machine to stand-by 30 seconds after the trigger gun is released
- Thermal overload switches off machine in case of excessive power consumption.

# Clean up with kranzle®

## kranzle® KHD7/122 10A SINGLE PHASE

### 1740psi - 7L/min HIGH PRESSURE WATERBLASTER

Incorporating all the professional features in a compact design.

- 10m steel wire anti-wear heavy duty hose
- Ideal for boats and cars - ultra portable, only 22kg
- Heavy duty spray gun with safety cut-out
- Stainless steel variojet lance
- Ceramic coated pump pistons for long life
- 10 amp plug
- 24 month warranty.

## kranzle® K1152TST-10A 10A SINGLE PHASE

### 1885psi - 10L/min HIGH PRESSURE WATERBLASTER

The 1152TST comes ready to go - just reel out the hose drum, select your lance and you're blasting - and blasting at 1885psi!

- Vario jet lance
- Detergent injector
- Cable reel c/w 5m power cable
- Integrated trolley and on-board accessory storage
- Dirt killer nozzle
- Fully adjustable pressure control.

**Save  
\$100!**

**\$1495** +gst  
(\$1719.25 incl. gst)

## kranzle® KQ599TST 15A SINGLE PHASE

### 2175psi - 10L/min HIGH PRESSURE WATERBLASTER

Efficient, powerful single phase cleaning machine with high pressure detergent system - giving you 30% more cleaning power than competitors models.

- Adjustable pressure control with total stop function
- Graphite packed seals for dry-run safety
- Brass pump head & ceramic coated pump pistons
- 1400rpm - for a lifetime of reliability.
- HP detergent pickup fully adjustable
- 30 sec rundown delay for efficient total stop function
- Built in water tank for continuous running.

### 200A MULTI-PROCESS MIG INVERTER WELDER

#EZIMIG200

MIG/ARC function, arc force adjustment and 4 roller drive make the EZI MIG the popular choice for workshops and on-site environments. Ready to weld with leads & MIG Torch.

- 15kg wire spool capable
- Voltage spike & generator safe
- Real time digital display.

**\$1795**+gst  
(\$2064.25 incl. gst)

### 160A MMA (STICK) INVERTER WELDER

#EZIARC160

Lightweight, compact, easy to use single phase welder for portable applications and rugged conditions. Extreme stress tested in production up to 440V

- Automatic arc force, hot start & anti-stick control
- IP23 Rating for moisture, salt spray and corrosion protection
- Accurate pre-setting and feedback of welding parameters & output.

**\$495**+gst  
(\$569.25 incl. gst)

**FREE**  
AUTO DARKENING  
HELMET  
(#DW2500)

### 160A MMA (STICK) INVERTER WELDER

#ADVARC160

Weld 10mm steel with ease using 1.6-4mm electrodes thanks to ultra reliable, high performance new PFC Technology. Only 4.6kg and optional lift Tig.

- Real time digital display
- PFC & multi-voltage equipped
- 60 % Duty cycle @135A
- Voltage spike & generator safe
- IP23 salt spray & moisture resistant.

**\$649**+gst  
(\$746.35 incl. gst)

### 400A MMA (STICK) INVERTER WELDER

#ADVARC500

3 Phase MMA (Stick) Welder with high tech features for industrial use. Factory tested to 550V with latest IGBT technology for reliability and performance.

- Designed for using cellulose welding rods
- Adjustable arc force, hot start and anti-stick
- 60 % Duty cycle @ 400A
- VRD Protection

**\$2395**+gst  
(\$2754.25 incl. gst)

AUTO DARKENING  
HELMET  
(#DW3000)

### AUTO DARKENING HELMETS

- High strength impact resistant!

#DW2500

- For MIG, MMA and Plasma
- Wide view 96 x 46mm clear lens
- Sensitivity adjustment
- 2 sensors for super-fast switching
- Comfortzone headband assembly
- Variable shade 9 - 13.

**\$89**+gst  
(\$102.35 incl. gst)

Save  
**\$40!**

#DW3000

- For MIG, TIG, ARC welding + Plasma
- Wide view 100 x 53mm clear lens
- Variable shade 9-13 + Plasma 5-8
- Dual solar / battery back-up
- Grind function
- Sensitivity adjustment w/ 4 sensors to pick up TIG at low amps.

Save  
**\$39!**

**\$110**+gst  
(\$126.50 incl. gst)

### PROFESSIONAL WELDING TROLLEY

#17384

- Super heavy duty welded frame with industrial wheels
- Suits MIG, TIG and MMA (Stick) welders and water cooling setups.
- Fits 'G' Size gas bottle
- Includes gas bottle chain.

**\$275**+gst  
(\$316.25 incl. gst)

Save  
**\$74!**

### LEATHER WELDING GLOVES

#AWG02

- Premium quality leather
- Special comfort fit design.

**\$18.50**+gst  
(\$21.28 incl. gst)

## 180A INVERTER DC HF TIG WELDER

#EZITIG180

State of the art IGBT inverter technology, real time digital display, a robust design and HF start makes this an ideal machine for on-site maintenance and stainless steel work.

- 2T/4T Trigger control great for longer welds.
- Super lightweight only 5.5kg
- Voltage spike & generator safe
- 4m TIG torch + earth & arc leads
- DC TIG and MMA (stick) function

**\$965**+gst  
(\$1109.75 incl. gst)

## 200A INVERTER DC PULSE TIG WELDER

#ADVTIG200

Save time and money! Featuring program saving function, pulse TIG/MMA processes, adjustable amps and frequency, save up to 10 different settings!

- Multi-voltage input, great for extension leads.
- 2T/4T Trigger control for longer welds
- Super lightweight - only 9kg
- Wireless foot control capable
- Voltage spike & generator safe

**\$1395**+gst  
(\$1604.25 incl. gst)

Save  
**\$100!**

## 40A INVERTER PLASMA CUTTER

#EZICUT40

Single phase, professional lightweight 40A Plasma Cutter with pilot arc torch and the latest IGBT technology - cuts steel in excess of 18mm thick!

- Euro Connect torch system
- Intelligent protection system
- Superior cutting capability especially for discontinuous cutting.

**\$1395**+gst  
(\$1604.25 incl. gst)

## 140A INVERTER ARC WELDER

#WT140ARC

- 10 - 140A welding for up to 8mm
- Exceptionally smooth welding
- Auto ARC force and hot start
- Extremely portable and convenient at only 3.6kg!
- High open circuit voltage
- Welds 1.6 - 3.2mm electrodes
- 60% duty cycle @100A
- 18 month commercial warranty.

**\$249**+gst  
(\$286.35 incl. gst)

## 210A PROMIG GAS/GASLESS WELDER

#BWMIG210

- Welds from thin panel to 8mm steel
- 6 voltage settings ensure easy set up
- Includes earth lead, regulator, adaptor and genuine 3m Binzel style MIG torch
- Takes 5kg or 15kg spools of wire
- Heavy duty gas bottle trolley
- 2 year warranty

**\$695**+gst  
(\$799.25 incl. gst)

## 160A INVERTER MULTI-PROCESS WELDER

#WT160MP

- Ultra-versatile 160A MIG, Lift TIG and MMA welder
- Weld like a pro on home or workshop projects with stepless controls and IGBT Inverter Technology.
- 60% duty cycle @ 130A
- 10A plug for home power supplies
- Takes 1kg and 5kg spools of wire
- 2m direct connect torch with ARC and earth lead (reg optional)
- Gas/gasless welding
- 18 month warranty.

## Wet & Dry Vacuum Cleaners

### 1500W, 20L Wet & Dry Industrial Vacuum with Powertool connection socket

#VMVK1520SIW

- Function switch for synchronised start when external power tool is turned on
- Dual action floor tool, crevice tool, 2 x extension wands
- Super heavy duty construction - ideal for all tradesmen
- Hepa filtration + cartridge and bag filtration
- 12 month warranty.

**\$249<sup>+</sup>gst**  
(\$286.35 incl. gst)

**Save \$100!**

### 1600W, 50L Wet & Dry Industrial Vacuum with Powertool connection socket

#VMVK1650SWDC

- Synchronised start with external power tool
- Ideal for builders, car valet and workshops - built for tough environments!
- Dual action floor tool, crevice tool, 2 x extension wands
- Hepa filtration + cartridge and bag filtration
- 12 month warranty.

**\$399<sup>+</sup>gst**  
(\$458.85 incl. gst)

#### LAVOR 2900PSI HOT & COLD HIGH PRESSURE CLEANER

#HYPER2015 INOX

- 2900psi - 15L/min cleaning power
- Diesel fired boiler for 140°C water
- 10m high pressure wire weave hose
- Water cooled long life 1450rpm pump and motor for industrial applications
- 22L diesel tank, 6.6L/hr of diesel
- 5 year warranty on stainless steel boiler coil - safe for food & dairy
- 12 month commercial warranty.
