## An Exclusive Preorder From Endeavour Tools ULTRACAP BATTERYLESS JUMPSTARTERS

Finally technology has moved ahead with this revolutionary new line of portable jumpstarters - never be left waiting for the unit to charge again,! These units charge in just three minutes and can even charge from a depleted battery as they only need 5v to charge!

### NO INTERNAL BATTERY

Innovative, next generation capacitor technology. Intrinsically safe, ideal for extreme conditions.

### QUICK CHARGING

Can be fully energised in less than 3 minutes. No more delays waiting for battery to charge. Ideal for car yards, workshops etc.

### NO EXTERNAL POWER SOURCE NEEDED!

Can use the residual energy in a depleted battery to energise the jumpstarter. (requires 5V+ residual charge)

### FLEXIBLE CHARGING

If the vehicle battery has insufficient residual charge, these units can easily charge from another vehicle battery, USB cable or power tool battery. (12V)

## THREE MODELS TO CHOOSE FROM
