THE IKOTEC ONE POST MINI LIFT

Designed and manufactured in Europe

PICTURE THIS

Its 3pm and raining, all your hoists are full and you need to do a quick inspection on a customers car. Are you going to lie down on the wet ground? No way! Just roll over the Ikotec and you'll have that car jacked up in a jiffy!

Screw Operated & Simple to Use

SAVE YOUR BACK!

Working on cars is hard on the body, your back neck and knees really bear the brunt of crouching and bending down all day. Never fear, Ikotec is here to help! Now you can position any car for perfectly in just a few seconds, with the Ikotec one post mini lift.

Lifts on the tyre, or on the sill
