About Us

All Euro Parts is NZ's leading independent European vehicle parts supplier and wholesaler. We have a huge range of parts on site, and with new shipments arriving regularly from overseas, we can easily source rare parts too. Our extensive network of couriers allows us to deliver nationwide within two days.

Our Story

Auric Mirfin began his mechanical apprenticeship at his father's VW workshop in 1983. After completing his apprenticeship at Giltrap European in Auckland, he worked for Continental Car Services and later moved to London where he managed a European vehicle repair garage for five years.

On his return to NZ in 1998, he worked for Bill Tapper European, before starting up Autohaus European. During his time at Autohaus European (1998 - 2014), he started to build a small range of specialist tools for hire. Starting with this base Auric started to grow the parts and tools side of the business. Eventually, All Euro Parts became a brand in its own right and Autohaus was sold to Adrian Sutton, who had worked with Auric for 10 years.

Since then the business has gone from strength to strength and now has 18 full time staff over three branches to make sure we can deliver all the parts and tools you need at a good price in the nick of time.

Capricorn Preferred Supplier

All Euro Parts is a preferred Capricorn Supplier. Capricorn is a member based organisation operating by cooperative principles to primarily support businesses in the automotive industry. This approach allows Capricorn Members to better manage their businesses by saving time and money. Today, Capricorn has over 22,000 Members and over 2,500 committed Preferred Suppliers across Australia and New Zealand. Capricorn Members automatically have an account with All Euro Parts..

Our Range

Belt Drive

Cam Belt Kits - Tensioners - Dampers - Belts - Idlers

Brakes

Discs - Pads - Brake Hoses - ABS Parts - Hand Brake Shoes - Wear Sensors - Master Cylinders

Cooling System

Water Pumps - Water Housings - Expansion Tanks - Hoses - Radiators - Viscous Couplings - Thermostats - Cooling - A/C Compressors - Specific Antifreezes - EGR Coolers

Electrical

Special Relays - Switches
Sensors For - Cam/Crank/Air Mass/Knock/
Throttle Oxygen Sensors - Level Sensors - Door Catches - Handle Repair Kits & More - Air Mass Sensors - Throttle Bodies - Starter Motors - Alternators

Engine & Drive Components

Gaskets - Seals - Drive Couplings - Harmonic Balancers - Sump Pans - Breather Hoses - Engine & Gearbox Mounts - CV Joints - Boot Kits - Pistons Valves - Bearings - Timing Chain kits

Filtration

Air - Oil - Fuel - Pollen - Auto Trans Filters - DSG Filters

Fuel System

Fuel Pumps - high pressure pumps - Fuel tappets - Petrol injectors - Diesel injectors

Specialty Oils & Fluids

Specialty Oils For Diff/Trans - & Transfer Boxes
Specialty Brake and Transmission fluids.

Specialty Automotive Tools

Specialty Tools to Buy and Hire - Huge Range of over 1000 Tools

Steering & Suspension Parts

Shocks - Steering Arms - Bushings - Shock Mounts - T/R Ends - Wheel Bearings - Sway Bar Links - Steering Boots - Control Arms - A Arms - Wishbone Arms - Air Struts - Air Suspension Conversion Kits.

Transmission

Clutch Kits - DMF Kits - CSC Concentric Slave Cylinders - Seals - Specialty Tools

VIEROL

AKTIENGESELLSCHAFT

VAICO

VEMO

Leading air con & electronic systems

VIEROL AG - A successful international specialist for electronic components and engine management in the automotive sector. We deliver more than 43,000 high-quality vehicle parts in 125 countries on all continents.

VAICO - With over 28,000 high-quality spare parts and 2,700,000 vehicle connections, we guarantee a high level of vehicle coverage: our extensive range of transmission components and spare parts for air control systems and engine control covers a wide range of models

VEMO - One of the top-rated manufacturers of advanced automotive sensors, switches, EGR valves, emission control sensors, MAF sensors, and other automotive electronics. The company is focused mainly on European car brands such as the VW group, BMW, Mercedes-Benz, and PSA.

SCHAEFFLER

German OE Quality Parts

Schaeffler Group has been driving forward groundbreaking inventions and developments in the fields of motion and mobility for over 70 years. With innovative technologies, products, and services for CO₂-efficient drives, electric mobility, Industry 4.0, digitalization, and renewable energies, Schaeffler is a reliable partner. Schaeffler manufactures high-precision components and systems for powertrain and chassis applications as well as rolling and plain bearing solutions for a large number of industrial applications.

The Schaeffler Group generated sales of approximately EUR 12.6 billion in 2020. With around 83,900 employees, Schaeffler is one of the world's largest family companies and, with approximately 200 locations in over 50 countries, has a global network of manufacturing locations, research and development facilities, and sales companies.

The LuK RepSet family of products (LuK RepSet, LuK RepSet Pro, LuK RepSet DMF and the LuK RepSet 2CT) supports garages in providing professional clutch repair. The LuK range offers a complete selection of clutches and system solutions. The portfolio also includes hydraulic components for repairing parts surrounding the clutch system and power-steering pumps. In addition The LuK RepSet SmarTAC is an intelligent solution for repairing heavy commercial vehicle clutches.

LuK Dual Mass Clutch Kit

INA offers solutions for the timing drive and the front-end accessory drive (FEAD) as well as valve train components – including the INA Tensioner SET, the INA Tensioner KIT – with or without water pump – tension and guide pulleys, the INA FEAD KIT, mechanical and hydraulic tappets, along with rocker arms and finger followers. The INA brand also has a complete selection of transmission and differential components for passenger-car manual gearboxes.

INA Water Pump Module

The FAG brand has everything for easy replacement of wheel bearings with its portfolio that includes precision & reliable wheel bearings and complex bearing modules – from the FAG WheelSet, to the FAG WheelPro for replacing the wheel bearings at both ends of a single axle, to wheel-bearing repair solutions for light commercial vehicles and the FAG RIU (Repair Insert Unit) for heavy commercial vehicles.

FAG Wheel Bearing Assemblies

Motorservice Passion for Technology

The Motorservice Group is the sales organisation for the global aftermarket activities of Rheinmetall. It is a leading supplier of engine components for the independent aftermarket. With the premium brands Kolbenschmidt, Pierburg, TRW Engine Components and the BF brand, Motorservice offers its trade and repair shop customers a wide and comprehensive range of top-quality products.

KOLBENSCHMIDT

The Kolbenschmidt brand stands for more than 100 years of experience in the production of pistons. With its products for petrol and diesel engines in the passenger and utility vehicle sectors, the company is indisputably one of the world's leading manufacturers. Increasing the power density and achieving further reductions in fuel consumption and emissions are two of the driving factors when developing new piston concepts for the Kolbenschmidt brand.

PIERBURG

Pierburg began to produce carburetors in 1928 and soon became virtually the sole supplier to all German automotive companies and many international vehicle producers and engine manufacturers. Pierburg is a specialist within the group for the fields of emission control, air supply and throttle valves. Its decades of experience and comprehensive and innovative expertise when it comes to engines provide ideal foundations for Pierburg in the ongoing development and production of pioneering components, modules and systems. Pierburg products, offer independent repair shops maximum quality and innovation.

TRW EngineComponents

As an OEM, TRW Engine Components have been producing valves and valve train components for car manufacturers across the globe for more than 90 years. TRW valves are high quality. And there is an extensive product range for passenger and utility vehicles guaranteeing customer satisfaction.

Kolbenschmidt Range
Pistons - Cylinder liners - Kit Sets
Engine bearings - Piston ring sets
Cylinder Heads - Filters - Camshafts
Shaft protection sleeves

TRW Valve Range

Pierburg Range
Fuel Supply- Air Supply- Water Pumps - Emission Control
Lambda Probes- EGR Coolers- Sensors - Manifolds
Air & Pollen Filters - Fuel & Oil Filters - Water Circulating Pumps
Electrical Coolant Pumps - Electric Valves - Throttle Valves
Vacuum Pumps - Exhaust - Gas Flaps- Oil Pumps

MEYLE

MEYLE-HD: Better than OE.

MEYLE-HD products are technically superior to the OE part, whilst the reinforced and optimised design and high-quality materials make them more durable and reliable – as a result, they simply last longer and often outperform OE parts. Meyle gives a 4-year guarantee on all MEYLE-HD parts.*

* Conditions Apply

MEYLE-PD: Advanced design.

MEYLE-PD brake discs and brake pads are components which offer optimal braking performance and are setting new benchmarks in durability, comfort, optics and simple installation – and, of course, they're ECE-certified.

MEYLE-ORIGINAL: True to OE.

More than 24,000 spare parts for passenger cars, vans and trucks – quality-tested, robust, durable and proven a thousandfold on the road. With this comprehensive product range – from A for axial rod to S for stabiliser links – our customers are always on the safe side when it comes to quality.

NZ Distributor for the Meyle OE, HD & PD Ranges.

MEYLE supplies its customers with more than 24,000 extremely reliable and durable spare parts manufactured at their own production facilities or by trusted production partners. MEYLE boasts a highly diversified product range. Whether it's steering and suspension components, rubber-to-metal parts, brakes, damping components, cooling systems, filters, drive train components, auto electronics or sensing technology, MEYLE is synonymous with top-grade quality-tested spare parts!

Ball pin – the size makes all the difference!

MEYLE-HD ball pins for passenger cars are significantly larger than those of OE manufacturers. We enlarge the ball pins, reduce the surface pressure and thus increase the service life considerably.

MEYLE-HD ball pins have exactly the load-bearing ball diameter required for a durable joint. They therefore clearly last longer than the OE ball pins.

Conventional dimensioned ball joint

Ø OE part < Ø MEYLE-HD

OE part

Enlarged ball diameter

MEYLE-HD water pumps – New defined quality!

Our MEYLE-HD water pumps set new standards thanks to sophisticated components that are perfectly adapted to individual operating conditions.

Our unique promise for MEYLE-HD water pumps: 4-year warranty and parallelly 100,000 miles performance guarantee*. *Conditions Apply

Reinforced water pump bearing

Equipped with 4-point-ball roller bearings or contact ball bearings

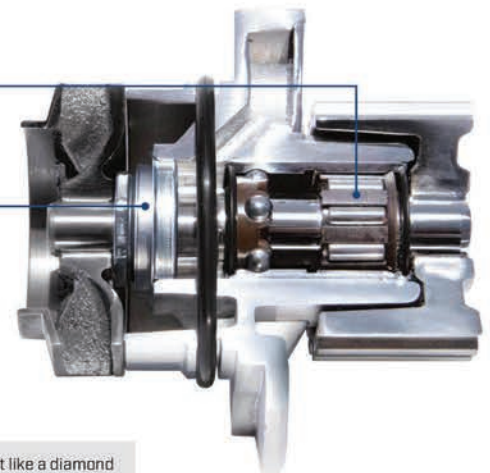

Housing made of high-quality stainless steel

Ondular washer for even force distribution

Secured temperature and age resistance: Sealing made of a high-performance elastomer (HNBR)

SICISIC mechanical seal**

Wear-resistant like a diamond and resistant to abrasive materials
