supafix®

The #1 Workshop Glue

About Supafix/APX4

Supa-Fix repairs are robust and can be ground, filed, tapped, sanded and painted! The adhesive and powders are resistant to fluids like oil, petrol and battery acid and heat resistant up to 356°F / 180°C. The application nozzle makes it incredibly accurate to use, ideal for assembling smaller components.

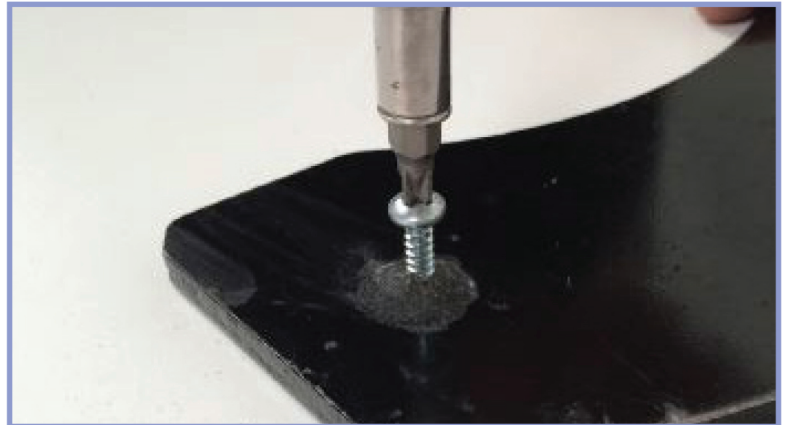

Repairs almost anything!

2 different colour filling powders for different surfaces.

Black	Grey
Wood	Aluminium
Plastics	Fibreglass
Ceramics	Carbon Fibre
Steel	Rubber

and much more!!

Even fixes stripped screws!

So Many Uses!!!!

Kit Includes:

- 2 x 10ml Ultra Strength Adhesive
- 1 x Black Reinforcing Filling Powder
- 1 x Grey Reinforcing Filling Powder
- Application Nozzle
- Anti Curing Pin
- User Guide
